

IC2500

Automatic 12V 25A 7 Stage Battery Charger

A highly advanced automatic charger for those serious about portable power, the IC2500 can be set to suit the battery's chemistry type and features adjustable charge rate to perfectly match the size of your batteries.

FEATURES

Removable Clamp for Hard-Wiring

Temperature Compensation Probe

Multi-Chemistry

Set the charging profile to suit battery chemistry type: Wet, Calcium, AGM or Gel

Adjustable Output

Adjustable for different battery sizes and includes temperature compensation probe for precise charging (Details page 35)

Power Supply Mode

Maintains a constant voltage on a battery making it ideal for vehicle diagnostics

Wired Remote Control

Allows charger to be mounted out of sight yet retain total control (Details page 35)

Shock & Dust Proof

Durable construction and safer charging with spark free and polarity protected connection
