

Delkor AGM S46B24R

Unprecedented performance, even in the most demanding conditions. Offers up to 3x the cycle life of a standard flooded battery when used in start-stop vehicles. Excellent starting power, even at lower charge states and start-stop systems. Greater cycling power and reliability with non-spillable, sealed packaging that mounts anywhere, in any orientation.

Choose the best of the best. Choose Delkor AGM batteries with the most advanced technology that is capable of powering the most demanding vehicles and accessories!

Key Benefits

- For vehicles with advanced start-stop function and regenerative braking
- Durable, lasting up to 3x longer cycle life than standard flooded batteries when used in start-stop vehicles
- Reliable, delivering superior electrical performance for high electrical demand
- Delivers better starting power in cold weather
- Safe, certified non-spillable. Suitable for mounting in any orientation
- Improved durability in hot climates with heat-deflection container design
